I would like to invite you to give a few opening remarks in a meeting between Chinese enterprises and graduates of the University of Nairobi organized by Confucius institute to be held on the 30th November, 2016 from 10:00—13:00 at the Great Court.

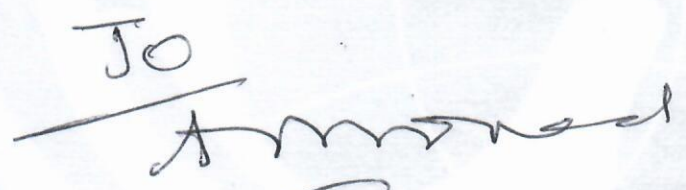

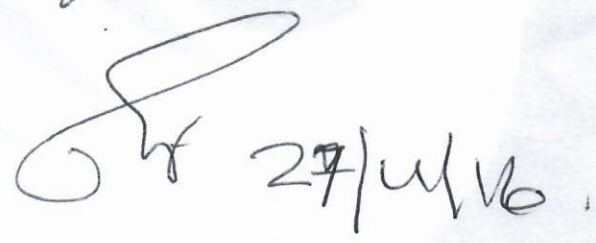

The meeting aims at bringing together University of Nairobi graduate students and Chinese companies here in Kenya that have a connection with Confucius Institute. The students will have a chance work in the companies and know what the companies require when they are employing so that they can be well prepared for the job market, and the companies will also be able know the students expectation from them as their potential employers. We would also like to encourage the students to learn Chinese language so as to be marketable in their field since most companies are owned, managed or even do business with the Chinese.
